BOOK-G Gift Cards

Features · https://book-g.com/docs/book-g-gift-cards/

BOOK-G Appointment Booking Software with the Gift cards feature

You can create Gift cards and present them to your customers through BOOK-G. The Gift card you have created will correspond to a certain amount, and if the customer uses this gift card when making an appointment, the money paid will be out of the gift card balance.

BOOK-G Appointment Booking Software with the Gift cards feature

Code

The code you set here will be the Gift card code. You have to present this code to only one customer. If the customer uses this code, the service fee will be charged from the balance of this Gift card.

Amount

The amount you set here will be the balance of the Gift card.

Location filter

If you choose a specific location here, this Gift card will only be available for services in that location.

Services filter

If you choose a specific service here, this Gift card will only be available for this service.

Staff filter

If you choose a specific staff here, this Gift card will only be available for the services of this staff.
