BOOK-G Holidays

Features · https://book-g.com/docs/book-g-holidays/

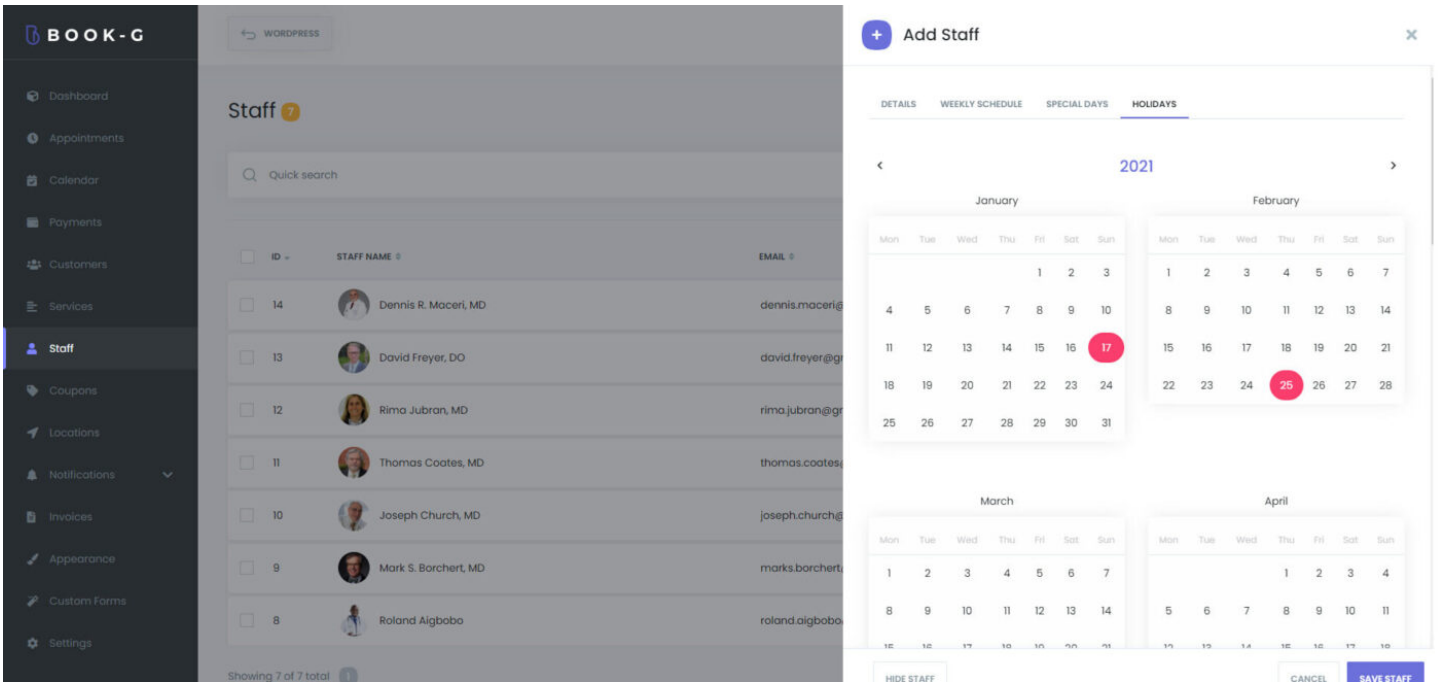

Some days may be out of working hours for your business during the year, and it is not intended to accept appointments on these days. If you accept an appointment for the day you are not working, this will have a negative impact on your company because you will have to call your customer and let them know that you are not available for that day. However, with the Holidays feature available in the BOOK-G Appointment Booking Software, this problem is no longer a problem.

By marking any day you want, you can close that day completely for appointments. This will affect the company in general and all your locations, services, and staff will not be able to accept appointments for the day you specify.

BOOK-G Holidays

If you want to set it only for specific staff and not for the whole business, it is possible to do this with BOOK-G. For this, you need to edit the staff profile, enter the Holidays tab from the menu above, and set the desired day as Holiday in the same way. Thus, the staff you have specified will not be able to accept any appointment for the day you have chosen.
