BOOK-G Reports

Features · https://book-g.com/docs/book-g-reports/

It will now be easier to analyze your business with the help of the Reports feature. You can now make a more detailed analysis with the 4 charts. These charts are the following:

Reports by the number of appointments

With the help of this chart, you can see which days you accept more appointments, which day you have how many appointments and you can make comparisons.

Reports by appointment earnings

With the help of this chart, you can see which days you earned more, how much you earned, and make comparisons.

Most earning locations

Which of your location has earned you more and the income from your locations will be shown here.

Most earning staffs

A useful feature to view information such as which staff earned you the most income, which staff earned a lot, how much your staff earned, and also a nice feature to select employee of the months.
